

REGISTRATION and UPDATING PROCEDURES FOR COMMERCIAL AND GOVERNMENT ENTITY CODE (CAGE) or a NATO CAGE (NCAGE)

BACKGROUND

The U.S. established the Commercial and Government Entity Code (CAGE), a code assigned to organizations (manufacturers, distributors, organizations, etc.) to facilitate the supply chain.

The NATO Codification System (NCS) was established in 1958. In order to differentiate between the U.S. and NATO systems, CAGE was referred to as NATO COMMERCIAL and GOVERNMENT ENTITY CODE (NCAGE) in the NCS community. When a business/organization is assigned a CAGE/NCAGE, they are in fact the same type/structure of code but identifies which nation or if NATO Support Agency (NSPA) assigned the CAGE/NCAGE.

The registration process begins with two critical elements:

1. **Physical location** of your business/organization
2. Who your business/organization wishes to conduct business with.

REGISTRATION for A NCAGE/CAGE CODE

If you are a:

- Non-U.S. Business/Organization, wishing to conduct business (contracts/grants) with the U.S. Government and/or Non-US Government, Proceed to STEP 1.
- U.S. Business/Organization, wishing to do business with **ONLY** Non-US government, proceed to STEP 1.
- U.S. Business/Organization, wishing to conduct business (contracts/grants) with the U.S. Government to include Foreign Government, Proceed to [System for Award Management \(SAM\)](#). An U.S. CAGE Code will be assigned at the end of the SAM Registration process.

Please note: If you already have a CAGE code and are a U.S. Business/Organization and **need to update your CAGE information and registration**, proceed to [System for Award Management \(SAM\)](#).

NATO CAGE CODES (NCAGE) PROCESSES

1. REQUEST NEW NATO CAGE CODES (NCAGE) WITH U.S. GOVERNMENT CONTRACTS/GRANTS

Entities physically located OUTSIDE of the U.S. and territories and wishing to conduct business (contracts/grants) with the U.S. Government, must FIRST request a NCAGE Code, followed by a DUNS Number and registration in SAM. Review the [instructions for obtaining an NCAGE](#) CODE.

1.1 Request NCAGE Code

- a. Entities register with NATO Support and Procurement Agency (NSPA) by using the [NATO Codification Tool](#) webpage to request a NCAGE Code by selecting the CAGE/NCAGE Code Request link.
- b. Check to see if a NCAGE Code is already assigned for the company.
- c. If the search does not result in a match to an existing NCAGE code:
 - Click [Request New] button in the bottom right hand corner of the screen.
 - Follow the directions to obtain an NCAGE Code.
 - Submit the request. A validation email message is sent to the POC in the NCAGE Request for confirmation.
- d. Confirm the NCAGE request by clicking on the link embedded in the email.

- e. NSPA assign an NCAGE or forward the request to the applicable [National Codification Bureau \(NCB\)](#) if the entity is located in a NATO (including the U.S.) or Tier 2 nation. NSPA assigns for all other entities NOT located in NATO or Tier 2 nations.

1.2 Validate NCAGE Code

- a. When the NCAGE Code is assigned, an email message will be sent to the entity POC in the NCAGE Request.
- b. The new NCAGE CODE information is validated by logging into the [NSPA web portal](#).
 - Click on the tab labelled [CAGE/NCAGE Code Request](#).
 - Enter the NCAGE Code in the first screen, click the Enter key.
 - At the bottom of the screen, a Results box will display. Click on the line of the entity/organization.
- c. NSPA and the appropriate country's NCBs will forward all NCAGE Code information to the U.S. CAGE Program Office. Depending on the assigned country, the data transmission to the U.S. CAGE Program Office will vary from daily/weekly/monthly/bi-monthly/annually based on their internal procedures for transmission to all AC/135 nations.
- d. If the NCAGE Code is not assigned by NSPA/or National Codification Bureau (NCB) then the company entity POC will be contacted by email/letter from NSPA or NCB.
- e. Entity POC should contact applicable NSPA or NCB indicated in the Annex of the [instruction link](#) at NSPA.

Scroll down the page to Annex section and contact the NCAGE POC for the nation where the entity is physically located.

1.3 Validate Information in [CSI](#).

- a. Once the NCAGE is received in the CAGE Program Office, the NCAGE Code is displayed in [CAGE Search and Inquiry](#) (CSI – formerly Business Identification Number Cross Reference System (BINCS))
- b. The entity/organization's Legal Business Name and Physical Address must match exactly with NSPA, [CSI](#), D&B and SAM.
- c. Access [CSI](#) to confirm the NCAGE Code data. *Refer to Section 14, Appendix 2.E How to Navigate CSI Tool.*
- d. If the NCAGE does not display in CSI but IS located in the [CAGE/NCAGE Code Request](#), contact the [DLA Contact Center](#) reporting this discrepancy.
- e. If all information is current in CSI and [CAGE/NCAGE Code Request](#) proceed to obtain a DUNS Number.

TIMEFRAME: CSI is updated after CAGE Program Office has received and processed the NCAGE data which may be up to **10 business days**.

1.4 Request a DUNS Number

- a. Register with [Dun & Bradstreet \(D&B\)](#) to obtain the Data Universal Numbering System (DUNS) Number by accessing the [webform](#).
- b. Ensure the entity's Legal Business Name and Physical Address match exactly with what was registered for the NCAGE Code by logging into the [NSPA web portal](#) and using the search option.

TIMEFRAME: Allow **1 to 2** business days to obtain the international DUNS Number.

1.5 Register with the System for Award Management (SAM)

- a. You **must** have the NCAGE Code and the DUNS Number before registering in SAM.
- b. [Register in SAM](#) once the D&B number and NCAGE Code are granted.
- c. Follow the [quick guide for international registrations](#) at [SAM.gov](#) for registrants who are physically located outside the U.S. and its territories
- d. Foreign vendors are **NOT** required to enter tax identification numbers (TIN) in SAM. If TIN information is entered, the SAM Registration will be sent to the Internal Revenue Service (IRS) for validation (which will increase the processing time) before being forwarded on to the CAGE Program Office for final validation.
- e. If the registration is successfully processed in SAM with the NCAGE Code and submitted to CAGE

Program Office for final validation, an email confirmation will be sent to the authorized administrator user(s) of the entity/organization and the SAM status will be updated to “Pending CAGE Validation”.

- f. If the registration is not complete at SAM, the status will indicate “Draft” until the Core Data is complete. “Work in Progress” indicates that Core Data is not complete.

- h. Log into SAM and check the [SAM Status Tracker](#) to check the status. The checkmarks on the left navigation menu or error messages at the top of the page will indicate what is required to complete the registration process. *Refer to Appendix 2.A SAM Status Tracker.*

1.6 CAGE Program validation based on SAM Registration with NCAGE

- a. CAGE Program is the last step for reviewing and validating the SAM Registration with an NCAGE.
- b. If the SAM Registration has been validated, the entity/organization's registration will be in CSI and SAM with a new expiration date and the status will reflect active.
- c. If CAGE returns the registration, SAM will display a registration status of “Failed CAGE Validation”. The return reason will be sent within **1 business day** to the email address supplied in SAM for the authorized administrator user(s) of the entity/organization. The application will not be processed until the information in the registration is corrected at SAM, NSPA, and D&B if applicable. *Refer to Appendix 4 SAM Letters.*
- d. If you received a “Failed CAGE Validation” notification, check NSPA, D&B, SAM and [CSI](#) and query to validate the LBN and the Physical Address matches exactly:
 - If corrections are required in the NCAGE data, submit update request through [CAGE/NCAGE Code Request](#).
 - If corrections are required with D&B, use the [web form](#).
 - If D&B is updated, the SAM Registration must accept D&B data LBN and the Physical Address.
 - If corrections are required with CSI, contact [DLA Contact Center](#).
 - The registration will not be processed until the information in the registration is corrected and resubmitted in SAM.

TIMEFRAME: Allow **10 business days** from the date of SAM submission for the CAGE Program Office validation process to be completed.

5. APPENDICES

Appendix 1: Governing Directives and Regulations

The U.S. established the Commercial and Government Entity Code (CAGE) in 1950, a code assigned to an **entity (manufacturers, distributors, sole proprietors, service organizations, consulting, etc.)** to facilitate the Federal Catalog System (FCS) and supply chain. The CAGE Code is a five-character alpha-numeric identifier assigned to entities located in the United States and its territories by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch. The CAGE Program Office website which contains instructions, resources and links is found at <https://CAGE.DLA.MIL>.

The NATO Codification System (NCS) was established in 1958 and is administered by the NATO Allied Committee 135 (AC/135) National Codification of Directors. The AC/135 oversees the system, logistics data and process for all NATO and participating nations. The Allied Codification Manual (ACodP-1) is the policy and processes for the NCS.

In order to differentiate between the U.S. and NATO systems, NCAGE was referred to as NATO COMMERCIAL and GOVERNMENT ENTITY CODE (NCAGE) in the NCS community. The NCAGE Code is a five-character alpha-numeric identifier assigned to entities located outside the United States by the NATO or NSPA organizations. When an entity is assigned a CAGE/NCAGE, the code is the same structure but it identifies which nation or if the NATO Support Agency (NSPA), assigned the CAGE/NCAGE.

Highest-Level Owner and Immediate Owners relating to an entity/organization, request a CAGE Code using the Request or Update CAGE Code Form which is further discussed in Section 7. Federal Acquisition Regulation ([FAR](#)) [Subpart 4.18](#) requires that you provide information about your entity's ownership and control as part of your SAM regulation. Defense Federal Acquisition Regulation ([DFARS](#)) [PGI 204.18](#) provides procedures, guidance and information on the administrative matters of the CAGE code.
